

A Joy Ride

This isn't a protest against the automobile. Those who can afford it may "burn gasoline" to their heart's content. In fact it helps business.

But you will remember that the grasshopper that sang all summer got his singer sadly out of tune when winter time arrived. It's fun to go the fast pace, but not unless you can afford it. It's better to play safe than to be sorry afterward. It's better to save a little as you go along than to whiz off into the future on high speed and land in the ditch. The rich men of today were the saving men of yesterday almost without exception. Our bank offers you every opportunity for systematic saving.

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system, thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. F. J. Effective Sunday, May 27, Sunday service at the Huntingdon postoffice will be as follows: Mail arriving Saturday night will be opened and distributed early Sunday morning. The office will then be closed to the public until 12 o'clock. The lobby will remain open and those having lock boxes can call and get their mail at pleasure. At 12 o'clock, or close of church service, the mail from train No. 4 will be opened and the public served for a reasonable time. Under no circumstances will the office be open during the Sunday school hour, or church services or during the recess between the two services. The 5 o'clock mail will be opened as usual. No mail will be dispatched on No. 4.
